Key Features

Advanced Air Foam

Our advanced air foam defines a new standard in comfort, infused with cool-gel beads to help draw moisture away.

Supportive HD Foam

A layer of high density foam equalises body weight, alleviates pressure points and increases blood flow.

Box Steel Pocket Springs

Get the best of both worlds, with twice tempered pocket springs, individually packed to minimise partner disturbance.

Improved Air Flow Design

Our specialised deep cut design provides greater air permeability and lateral contouring for a cooler sleep.

Washable Bamboo Cover

Made from bamboo fibres, our quilted mattress cover makes for a super soft and breathable sleep surface.

Mattress Handles

Whether you're moving house or rotating your mattress, do it with ease with strong and stable mattress handles.

Durable Base & Materials

Our mattress has been designed to withstand tough conditions and heavy use, with strong and durable materials.

Easy Delivery & Set Up

Our hybrid mattress comes vacuum packed and rolled, making it easy to deliver and install!
